Description

Financial Accounting (Indian Adaptation) provides a clear, rigorous, and student-friendly introduction to financial accounting fundamentals for undergraduate and postgraduate programmes. The book combines strong conceptual coverage with step-by-step worked illustrations and extensive practice material to support effective learning. Updated content reflects current accounting standards, including recent IFRS revisions, ESG reporting, and data-driven decision-making. Application-oriented features, real-world examples, and analytics exercises help students connect accounting concepts to business practice. Supported by rich digital resources and Excel-based problem sets, the book is ideal as a core text for modern accounting curricula.
