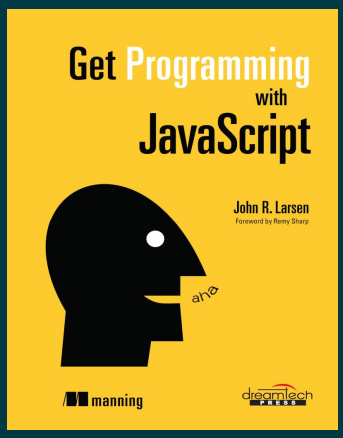
WILEY



Get Programming with JavaScript

By John R. Larsen

Paperback 9789386052865 ₹799.00

Pages: 432

Description

It is a book for beginners, for those with no programming experience. It makes extensive use of online code listings on the JS Bin website, a sandbox where you can experiment with the code and see the results instantly. In addition to shorter examples to illustrate the concepts covered, there is an ongoing example—a text-based adventure game called The Crypt—that you build as you progress through the book. This book contains many examples of source code both in numbered listings and in line with normal text.
