Managerial Accounting, 10ed (An Indian Adaptation)

By Jerry J. Weygandt, Paul D. Kimmel, Jill E. Mitchell, Sanjay Pareek

Paperback 9789377065492 ₹1,125.00

Pages: 774

Description

Managerial Accounting: Tools for Business Decision Making, Tenth Edition, is the Indian adaptation of the market-leading text by Jerry J. Weygandt, Paul D. Kimmel, and Jill E. Mitchell. It shows students how managers use accounting information to plan, direct, and control a business, and it does so through the decisions managers actually face.

The book opens with managerial cost concepts and the three costing systems: job order, process, and activity-based. It then turns to decision-making, covering cost-volume-profit analysis, incremental analysis, and pricing. The third part addresses planning and control through budgeting, responsibility accounting, standard costs, the balanced scorecard, and capital investment decisions. The book closes on performance evaluation with the statement of cash flows and financial analysis.

For this adaptation, all content has been reviewed and revised for Indian classrooms. Every chapter ends with an India Insight section. Problems and illustrations are denominated in rupees, ethics coverage is grounded in the Companies Act, 2013 and the National Financial Reporting Authority, and examples draw on companies students recognize.

The tenth edition also brings data analytics into the core of the course. Data Analytics Insight boxes show how real companies use data to make managerial decisions, and Data Analytics in Action problems give students Excel templates to build charts, run regressions, and interpret the results. A continuing case on Current Designs kayaks runs through the book, and the hallmark pedagogy remains: learning objectives, DO IT! exercises, Using the Decision Tools, and a full Review and Practice section in every chapter.

About the Author

Jerry J. Weygandt, Paul D. Kimmel, Jill E. Mitchell, Sanjay Pareek

Jerry J. Weygandt, PhD, CPA, is Arthur Andersen Alumni Emeritus Professor of Accounting at the University of Wisconsin–Madison. His articles have appeared in The Accounting Review, Journal of Accounting Research, Accounting Horizons, and Journal of Accountancy. He has served as President and Secretary-Treasurer of the American Accounting Association, on the AICPA's Accounting Standards Executive Committee, and as a trustee of the Financial Accounting Foundation. He is a recipient of the AAA's Outstanding Educator Award.

Paul D. Kimmel, PhD, CPA, is a Senior Lecturer at the University of Wisconsin–Madison, following more than 25 years as an Associate Professor at the University of Wisconsin–Milwaukee. He has public accounting experience with Deloitte & Touche and is a recipient of the Elijah Watts Sells Award for Honorary Distinction. He has published widely on financial instruments and innovation in accounting education.

Jill E. Mitchell, MS, MEd, CIA, is a Professor of Accounting at Northern Virginia Community College and an adjunct instructor at George Mason University. She serves on the American Accounting Association Education Committee and co-chairs the Conference on Teaching and Learning in Accounting. Previously a senior auditor with Ernst & Young, she is a recipient of Virginia's Outstanding Faculty Award.

Sanjay Pareek, Ph.D, M.Phil (UK), MBA (USA) is currently an Associate Professor of Finance and Accounting at Indian Institute of Management (IIM) Sirmaur where he teaches Management Accounting, Financial Accounting, Financial Management, Mergers and Acquisitions, Business Law, Corporate Governance and Sustainability related subjects. He has also previously taught Accounting and Finance related subjects at Indian Institute of Technology (IIT) Bombay, Indian Institute of Management (IIM) Raipur and University of Hawaii at Manoa, USA. He has previously worked in USA, Europe, Japan and India and served as the Chief Financial Officer of a Siemens group company and as President of an Indian Company with a total industry experience of two decades in Fortune 500 companies.

Table of Contents

Cost Concepts for Decision-Makers

Chapter 1 Managerial Accounting 1-1

Just Add Water … and Paddle: Current Designs 1-1

Managerial Accounting Basics 1-3

Managerial Cost Concepts 1-7

Manufacturing Costs in Financial Statements 1-12

Cost of Goods Manufactured 1-14

Managerial Accounting Trends 1-16

The Value of Data Analytics 1-21

Data Analytics in Action 1-43

India Insight 1-47

Chapter 2 Job Order Costing 2-1

Profiting from the Silver Screen: Disney 2-1

Cost Accounting Systems 2-3

Job Order Cost Flow 2-5

Predetermined Overhead Rates 2-13

Entries for Jobs Completed and Sold 2-16

Job Order Costing for Service Companies 2-19

Applied Manufacturing Overhead 2-22

Under- or Overapplied Manufacturing Overhead 2-22

Data Analytics in Action 2-41

India Insight 2-45

Chapter 3 Process Costing 3-1

Famed Soft Drink in the Outback: Back o’ Bourke Cordials 3-1

Overview of Process Cost Systems 3-3

Recording Costs 3-6

Equivalent Units 3-9

The Production Cost Report 3-12

Costing Systems—Final Comments 3-17

Appendix 3A: FIFO Method for Equivalent Units 3-20

India Insight 3-46

Chapter 4 Activity-Based Costing 4-1
Wellness for Customers and the Company: Technogym SpA 4-1
Traditional vs. Activity-Based Costing 4-3
Activity-Based Costing 4-5
ABC and Manufacturers 4-7
ABC Benefits and Limitations 4-13
ABC and Service Industries 4-20
Appendix 4A: Just-in-Time Processing 4-24
India Insight 4-49
Decision-Making Concepts
Chapter 5 Cost-Volume-Profit 5-1
Don’t Worry—Just Get Big: Amazon.com 5-1
Cost Behavior Analysis 5-3
Mixed Costs Analysis 5-8
CVP Analysis 5-11
Break-Even Analysis 5-16
Target Net Income and Margin of Safety 5-20
CVP and Data Analytics 5-23
Appendix 5A: Regression Analysis 5-25
Data Analytics in Action 5-45
India Insight 5-49
Chapter 6 Cost-Volume-Profit Analysis: Additional Issues 6-1
The Secret to Supermarket Profitability: Aldi 6-1
