eBook - Financial Innovation for Global Sustainability

By Mohd Afjal, Ramona Birau

eBook 9789373323220 ₹- Price

Pages: 640

Description

Financial Innovation for Global Sustainability explores how FinTech can drive environmental sustainability and inclusive economic growth. It integrates financial technology with sustainable development, emphasizing green finance, digital services, and innovation. The book provides empirical research, case studies, and policy discussions, addressing regulatory and ethical challenges to promote a sustainable, inclusive global financial future.
