WILEY

eBook - The Next Democracy: Reimagining How We Govern Ourselves Through the Power of Data and Markets

By Erdem Ovacik

eBook 9789377069179 ₹- Price

Pages: 304

Description

The Next Democracy by Erdem Ovacik explores a new model of governance using data and markets to improve democracy and public goods delivery. It advocates for a data-driven, transparent, and decentralized government using prediction markets and delegate voting, and envisions a 'Merit Democracy' aligning private and collective interests for sustainable societal wellbeing.
