eBook - Secure Energy Optimization: Leveraging Internet of Things and Artificial Intelligence for Enhanced Efficiency

By Abhishek Kumar, Surbhi Bhatia Khan, Narayan Vyas, Vishal Dutt, Shakila Basheer

eBook 9789377064693 ₹- *Price*

Pages: 496

Description

Secure Energy Optimization explores how Internet of Things (IoT) and Artificial Intelligence (AI) technologies can be integrated to enhance energy efficiency, security, and sustainability. It provides theoretical foundations, practical applications, and real-world case studies in energy management, smart grids, renewable energy, and predictive maintenance, bridging the gap between research and implementation.

About the Author

Abhishek Kumar, Surbhi Bhatia Khan, Narayan Vyas, Vishal Dutt, Shakila Basheer

Abhishek Kumar, PhD, is an assistant professor and the Research and Development Coordinator at Chitkara University with expertise in artificial intelligence, renewable energy, and machine learning.

Table of Contents

Preface

Exploring IoT and AI in Sustainable Agriculture

Machine Learning for Smart Grid Optimization

Innovations in Machine Learning for Energy Efficiency

Understanding Energy Security

Energy Storage and Optimization Techniques

IoT-Enabled Energy Storage Systems

Dynamic Pricing and Energy Optimization

Smart Energy with IoT and AI for Renewables

Machine Learning for Energy Efficiency

Support for Vulnerable Energy Users

Real-Time Monitoring and Fault Detection

Security Strategies for Smart Grids

Predictive Analytics in Energy Management

Intelligent Demand Response and Load Management

Real-Time Secure Energy Monitoring

Real-Time Pricing and Energy Efficiency

Case Studies of Secure Energy Optimization

About the Editors
