eBook - AI for Humanity: Building a Sustainable AI for the Future

By Andeed Ma, James Ong, Siok Siok Tan

eBook 9789373322681 ₹- *Price*

Pages: 304

Description

AI for Humanity: Building a Sustainable AI for the Future discusses designing, building, and implementing responsible, sustainable AI in organizations. It focuses on governance, technology, and commercialization to create AI that benefits humanity and aligns with universal values. The book includes case studies, ethical strategies, and frameworks to mitigate AI risks and promote sustainable growth.

About the Author
