eBook - Age of Invisible Machines, 2ed: A Guide to Orchestrating AI Agents and Making Organizations More Self-Driving, Revised and Updated

By Robb Wilson, Josh Tyson

eBook 9789377061265 ₹- Price

Pages: 336

Description

Age of Invisible Machines, 2nd Edition, by Robb Wilson and Josh Tyson, is a prophetic guide for orchestrating AI agents and making organizations more self-driving. It offers a 2027 roadmap for architects and executives to harness generative AI, build scalable agentic systems, and orchestrate intelligent agents across layers, driving AI-native transformation.

About the Author
