Financial Risk Management

By R. K. Arora

Paperback 9789390395637 ₹899.00

Pages: 404

Description

Financial Risk Management is designed to provide the readers with a stronger foundation in measurement and management of financial risks. This book takes the readers through the subject in a step-wise manner with the aim of providing necessary knowledge and skills for evaluating and dealing with financial risks. This book is primarily meant for graduate students of Management, and it would also prove helpful to the students intending to appear in the FRM examination conducted by Global Association of Risk Professionals (GARP) as well as practicing risk managers.

Chapter 6 Estimating Default and Migration Probabilities
6.1 Introduction
6.2 Credit Risk VaR
6.3 Measuring Probability of Default
6.4 Migration Probabilities
6.5 Basel Guidelines
Chapter 7 Credit Value at Risk
7.1 Introduction
7.2 Exposure at Default
7.3 Loss Given Default
7.4 Credit Risk Correlations
7.5 Expected and Unexpected Loss
7.6 Credit Risk Models
Chapter 8 Credit Risk Management
8.1 Introduction
8.2 Marking-to-Market
8.3 Netting
8.4 Collateralization
8.5 Downgrade Triggers
8.6 Loan Syndication
8.7 Guarantees and Letters of Credit
8.8 Credit Rationing
8.9 Debt Covenants
8.10 Monitoring
8.11 Put options
8.12 Credit Derivatives
8.13 Credit insurance
8.14 Securitization
8.15 Basel Guidelines
Chapter 9 Operational Risk
9.1 Introduction
9.2 Types of Operational Risk Losses
9.3 Measurement of Operational Risk
9.4 Managing Operational Risk

Chapter 10 Liquidity Risk
10.1 Introduction
10.2 Types of Liquidity Risk
10.3 Funding Liquidity Risk
10.4 Managing Liquidity Risk
10.5 Liquidity Black Holes
10.6 Basel III Regulations
Chapter 11 Model Risk
11.1 Introduction
11.2 Models for Pricing Standard Products
11.3 Models for Non-standard Products
11.4 Sources of Model Risk
11.5 Quantifying Model Risk
11.6 Managing Model Risk
11.7 Regulatory Requirement
11.8 Model Development
11.9 Model Validation
Chapter 12 Asset Liability Management
12.1 Introduction
12.2 Objectives of ALM
12.3 Interest Rate Risk
12.4 Liquidity Funding Risk
12.5 Organization of the ALM Function
12.6 Reserve Bank of India Guidelines on ALM by Indian Banks
Chapter 13 Enterprise Risk Management
13.1 Introduction
13.2 Economic Capital
13.3 Risk Appetite
13.4 Risk Culture
13.5 Top-down Approach
13.6 Bottom-up Approach
13.7 Risk Allocation
13.8 Risk-Adjusted Performance Measurement
13.9 Risk-Based Pricing
Chapter 14 Financial Innovation
14.1 Introduction
14.2 Important Financial Innovations
14.3 Role of Finance Theories and Models in Stimulating Financial Innovation

14.4 Factors that Motivate Financial Innovation
14.5 Diffusion of Financial Innovations
14.6 Classification and Functions of the Financial Innovations
14.7 Implications of Innovations on Financial Markets
14.8 The Future of Financial Innovation
Chapter 15 Role of Analytics in Risk Management
15.1 Introduction
15.2 Types of Data Analytics
15.3 Steps in Risk Analytics
15.4 Financial Risk Analytics
15.5 Benefits of Risk Analytics
15.6 Challenges in Use of Data Analytics
Summary
Glossary
Assignment Material
Caselets
