

Operations Management, 8ed (An Indian Adaptation)

By R. Dan Reid, Nada R. Sanders, Sidhartha S. Padhi

Paperback 9789363863262 ₹1,099.00

Pages: 672

Description

In an era of unprecedented business evolution, marked by technological breakthroughs and global challenges, an Operations Management (OM) textbook emerges to equip students with the essential tools to navigate the complexities of the modern corporate environment. This textbook stands as a testament to the transformative power of global integration, AI advancements, sustainability imperatives, and the disruptive effects of the COVID-19 pandemic on traditional business practices, emphasizing the pivotal role of OM in maintaining a firm's competitive advantage. This textbook aims to provide a foundational knowledge of OM, blending classic and modern methodologies, including IT, robotics, AI, and sustainable practices. It covers strategic and tactical decision-making and the specific challenges of service and manufacturing sectors. The book is also designed for accessibility, with relatable introductory stories and clear explanations to cater to students with varying business acumen. It progresses from strategic to tactical OM topics, with self-contained chapters for teaching flexibility and upfront background knowledge summaries.

About the Author

R. Dan Reid, Nada R. Sanders, Sidhartha S. Padhi

R. Dan Reid is Associate Professor Emeritus of Operations Management at the Whittemore School of Business and Economics at the University of New Hampshire. He holds a Ph.D. in Operations Management from The Ohio State University, an M.B.A. from Angelo State University, and a B.A. in Business Management from the University of Maryland. During the past 20 years, he has taught at The Ohio State University, Ohio University, Bowling Green State University, Otterbein College, and the University of New Hampshire.

Nada R. Sanders is a Distinguished Professor of Supply Chain Management at the D'Amore-McKim School of Business at Northeastern University. She holds a Ph.D. in Operations Management from The Ohio State University, an M.B.A. from The Ohio State University, and a B.S. in Mechanical Engineering. She has taught for more than 25 years at a variety of academic institutions including The Ohio State University, Lehigh University, Texas Christian University, and Wright State University. She has designed and taught classes for undergraduates, graduates, and executives across various industry groups on topics such as operations management, operations strategy, forecasting and analytics, and supply chain management.

Sidhartha S. Padhi is Professor of Quantitative Methods and Operations Management (QMOM) at Indian Institute of Management Kozhikode with more than 13 years of work experience. He obtained his Ph.D. from the Indian Institute of Technology, Kharagpur,

his master’s degree in scientific computing, and a bachelor’s degree in mechanical

engineering. He has also worked as a Senior Lecturer in the Operations Management Group at the Management Development Institute, Gurgaon, where he taught business statistics, management science, decision-making, and research methodology.

Table of Contents

1 Introduction to Operations Management
Chapter Overview
What Is Operations Management?
Differences Between Manufacturing and Service Organizations
Operations Management Decisions
Historical Development
Why OM?
Historical Milestones
The Industrial Revolution
Scientific Management
The Human Relations Movement
Management Science
The Computer Age
Just-in-Time
Total Quality Management
Business Process Reengineering
Flexibility
Time-Based Competition
Supply Chain Management
Global Marketplace
Sustainability and Green Operations
Electronic Commerce
Outsourcing and Flattening of the World
Artificial Intelligence (AI), Machine Learning, and Analytics
Today's OM Environment
Pandemic Effects
Operations Management in Practice
Within OM: How It All Fits Together
OM Across the Organization
The Supply Chain Link
The Sustainability Link
Cases: Gammatone Electronics Inc.
CareConnect Animal Clinic (A)
Analytics in Decision Making
Internet Challenge: Demonstrating Your Knowledge of OM
Summary / Key Terms / Discussion Questions /
Selected Bibliography
2 Operations Strategy and Competitiveness
Chapter Overview
The Role of Operations Strategy
The Importance of Operations Strategy
Developing a Business Strategy
Mission
Environmental Scanning
Core Competencies
Putting It Together
Developing an Operations Strategy
Competitive Priorities
The Need for Trade-Offs
Order Winners and Qualifiers
Translating Competitive Priorities into Production Requirements
Strategic Role of Technology
Types of Technologies
Technology as a Tool for Competitive Advantage
Productivity
Measuring Productivity
Interpreting Productivity Measures
Productivity and Competitiveness
Productivity and the Service Sector
Pandemic Effects
Operations Strategy Within OM: How It All Fits Together
Operations Strategy Across the Organization
The Supply Chain Link
The Sustainability Link
Solved Problems
Cases: Digital Transformation and Operational Excellence at ICICI Bank
BeShell Oil Company (BOC)
Analytics in Decision Making
Internet Challenge: Understanding Strategic Differences
Summary / Key Terms / Formula Review / Discussion
Questions / Problems / Selected Bibliography
3 Product Design and Process Selection
Chapter Overview
Product Design
Design of Services Versus Goods
The Product Design Process
Idea Development
Product Screening
Preliminary Design and Testing
Final Design
Factors Impacting Product Design
Design for Manufacture
Product Life Cycle
Concurrent Engineering
Remanufacturing
Process Selection
Types of Processes
Designing Processes
Process Performance Metrics
Linking Product Design and Process Selection
Product Design Decisions
Competitive Priorities
Facility Layout
Product and Service Strategy
Degree of Vertical Integration
Technology Decisions
Information Technology
Automation
E-manufacturing
Designing Services
How Are Services Different from Manufacturing?
How Are Services Classified?
The Service Package
Differing Service Designs
Pandemic Effects
Product Design and Process Selection Within OM: How It All Fits Together
Product Design and Process Selection Across the Organization
The Supply Chain Link
The Sustainability Link
Solved Problems
Cases: Titan Company Limited—Excellence in Product Design Strategy
CareConnect Animal Clinic (B)
Analytics in Decision Making
Internet Challenge: Country Comfort Furniture
Summary /Key Terms / Formula Review / Discussion
Questions / Problems / Selected Bibliography
4 Supply Chain Management
Chapter Overview
Basic Supply Chains
Components of a Supply Chain for a Manufacturer
A Supply Chain for a Service Organization
The Bullwhip Effect
Issues Affecting Supply Chain Management
E-commerce and Supply Chains
Consumer Expectations and Competition Resulting from E-commerce
Globalization
Infrastructure Issues
Government Regulation and E-commerce
Green Supply Chain Management
The Role of Purchasing
Traditional Purchasing and E-purchasing
Sourcing Decisions
Insourcing Versus Outsourcing Decisions
Developing Supplier Relationships
How Many Suppliers?
Developing Partnerships
Supplier Management Ethics
The Role of Warehouses
Crossdocking
Radio Frequency Identification Technology (RFID)
Third-Party Service Providers
Implementing Supply Chain Management
Strategies for Leveraging Supply Chain Management
Supply Chain Performance Metrics
Pandemic Effects
Supply Chain Management within OM: How It All Fits Together
SCM Across the Organization
The Supply Chain Link
The Sustainability Link
Solved Problems
Cases: Car Air Fresheners Supply Chain Management Game
Supply Chain Management at Rian Two Wheelers Company (RTC)
Analytics in Decision Making
Internet Challenge: Global Shopping
Summary / Key Terms / Formula Review / Discussion
Questions / Problems / Selected Bibliography
5 Total Quality Management
Chapter Overview
Defining Quality
Differences Between Manufacturing and Service Organizations
Cost of Quality
The Evolution of Total Quality Management (TQM)
Quality Gurus
The Philosophy of TQM
Customer Focus
Continuous Improvement
Employee Empowerment
Use of Quality Tools
Product Design
Process Management
Managing Supplier Quality
Quality Awards and Standards
The Malcolm Baldrige National Quality Award (MBNQA)
The Deming Prize
EFQM Excellence Award
ISO 9000 Standards
ISO Standards for Sustainability Reporting
Why TQM Efforts Fail
Pandemic Effects
Total Quality Management (TQM) Within OM: How It All Fits Together
TQM Across the Organization
The Supply Chain Link
The Sustainability Link
Solved Problems
Cases: Star Coast Advertising (SCA)
Beta Plastics Inc. (A)
Analytics in Decision Making
Internet Challenge: Snyder Bakeries
Summary / Key Terms / Formula Review / Discussion
Questions / Problems / Selected Bibliography
6 Statistical Quality Control
Chapter Overview
What Is Statistical Quality Control?
Sources of Variation: Common and Assignable Causes
Descriptive Statistics
The Mean
The Range and Standard Deviation
Distribution of Data
Statistical Process Control Methods
Developing Control Charts
Types of Control Charts
Control Charts for Variables
Mean (x-Bar) Charts
Range (R) Charts
Using Mean and Range Charts Together
Control Charts for Attributes
p-Charts
c-Charts
Process Capability
Measuring Process Capability
Six Sigma Quality
Acceptance Sampling
Sampling Plans
Operating Characteristic (OC) Curves
Developing OC Curves
Average Outgoing Quality
Implications for Managers
How Much and How Often to Inspect
Where to Inspect
Which Tools to Use
Statistical Quality Control in Services
Pandemic Effects
Statistical Quality Control (SQC) Within OM: How It All Fits Together
Statistical Quality Control (SQC) Across the Organization
The Supply Chain Link
The Sustainability Link
Solved Problems
Cases: The Grandview Hotel's Journey to Operational Excellence
Beta Plastics Inc. (B)
Analytics in Decision Making
Internet Challenge: Safe-Air
Summary / Key Terms / Formula Review / Discussion
Questions / Problems / Selected Bibliography
7 Just-in-Time and Lean Systems
Chapter Overview
The Philosophy of JIT
Eliminate Waste
A Broad View of Operations
Simplicity
Continuous Improvement
Visibility
Flexibility
Elements of JIT
Just-in-Time Manufacturing
Total Quality Management (TQM)
Respect for People
Just-in-Time Manufacturing
The Pull System
Kanban Production
Variations of Kanban Production
Small Lot Sizes and Quick Setups
Uniform Plant Loading
Flexible Resources
Facility Layout
Total Quality Management
Product Versus Process
Quality at the Source
Preventive Maintenance
Work Environment
Respect for People
The Role of Production Employees
Lifetime Employment
The Role of Management
Supplier Relationships
Benefits of JIT
Implementing JIT
JIT in Services
Improved Quality
Uniform Facility Loading
Use of Multifunction Workers
Reductions in Cycle Time
Pandemic Effects
Minimizing Setup Times and Parallel Processing
Workplace Organization
JIT and Lean Systems Within OM: How It All Fits Together
JIT and Lean Systems Across the Organization
The Supply Chain Link
The Sustainability Link
Solved Problem
Cases: Kazz Carpeting
Acoustic Audio Systems
Analytics in Decision Making
Internet Challenge: Truck-Fleet Inc.
Summary / Key Terms / Formula Review / Discussion
Questions / Problems / Selected Bibliography
8 Forecasting
Chapter Overview
Principles of Forecasting
Steps in the Forecasting Process
Types of Forecasting Methods
Qualitative Methods
Quantitative Methods
Time Series Models
Forecasting Level or Horizontal Pattern
Forecasting Trend
Forecasting Seasonality
Causal Models
Linear Regression
Multiple Regression
Measuring Forecast Accuracy
Forecast Accuracy Measures
Tracking Signal
Selecting the Right Forecasting Model
Forecasting Software
Predictive Analytics and Forecasting
Combining Forecasting
Collaborative Planning, Forecasting, and Replenishment (CPFR)
Pandemic Effects
Forecasting Within OM: How It All Fits Together
Forecasting Across the Organization
The Supply Chain Link
The Sustainability Link
Solved Problems
Cases: Costa-Wear
The Emergency Room (ER) at Southwest General (A)
Analytics in Decision Making
Internet Challenge: Online Data Access
Summary / Key Terms / Formula Review / Discussion
Questions / Problems / Selected Bibliography
9 Capacity Planning and Facility Location
Chapter Overview
Capacity Planning
Why Is Capacity Planning Important?
Measuring Capacity
Capacity Considerations
Making Capacity Planning Decisions
Identify Capacity Requirements
Develop Capacity Alternatives
Evaluate Capacity Alternatives
Decision Trees
Location Analysis
What Is Facility Location?
Factors Affecting Location Decisions
Globalization
Making Location Decisions
Procedure for Making Location Decisions
Procedures for Evaluating Location Alternatives
Pandemic Effects
Capacity Planning and Facility Location
Within OM: How It All Fits Together
Capacity Planning and Facility Location Across the Organization
The Supply Chain Link
The Sustainability Link
Solved Problems
Cases: SweetCrust Bakery
The Emergency Room (ER) at Southwest General (B)
Analytics in Decision Making
Internet Challenge: EDS Office Supplies Inc.
Summary / Key Terms / Formula Review / Discussion
Questions / Problems / Selected Bibliography
10 Facility Layout
Chapter Overview
What Is Layout Planning?
Types of Layouts
Process Layouts
Product Layouts
Hybrid Layouts
Fixed-Position Layouts
Designing Process Layouts
Step 1: Gather Information
Step 2: Develop a Block Plan
Step 3: Develop a Detailed Layout
Special Cases of Process Layout
Warehouse Layouts
Office Layouts
Designing Product Layouts
Step 1: Identify Tasks and Their Immediate Predecessors
Step 2: Determine Output Rate
Step 3: Determine Cycle Time
Step 4: Compute the Theoretical Minimum Number of Stations
Step 5: Assign Tasks to Workstations (Balance the Line)
Step 6: Compute Efficiency, Idle Time, and Balance Delay
Other Considerations
Group Technology (Cell) Layouts
Facility Layout Within OM: How It All Fits Together
Facility Layout Across the Organization
Pandemic Effects
The Supply Chain Link
The Sustainability Link
Solved Problems
Cases: Quickfoot Athletic Club (A)
Quickfoot Athletic Club (B)
Analytics in Decision Making
Internet Challenge: DJ and Associates Inc.
Summary / Key Terms / Formula Review / Discussion
Questions / Problems / Selected Bibliography
11 Work System Design
Chapter Overview
Work System Design
Job Design
Job Design
Machines or People?
Level of Labor Specialization
Eliminating Employee Boredom
Team Approaches to Job Design
The Alternative Workplace
The Work Environment
Methods Analysis
Work Measurement
Developing Standards
Developing a Standard Work Sampling
Learning Curve Theory
Compensation
Group Incentive Plans
Incentive Plan Trends
Pandemic Effects
Work System Design within OM: How It All Fits Together
Work System Design Across the Organization
The Supply Chain Link
The Sustainability Link
Solved Problems
Cases: The Navigator III
Southwest State University
Analytics in Decision Making
Internet Challenge: E-Commerce Job Design
Summary / Key Terms / Formula Review / Discussion
Questions / Problems / Selected Bibliography
12 Inventory Management
Chapter Overview
Basic Inventory Principles
How Manufacturers Use Inventory
Inventory in Service Organizations
Inventory Management Objectives
Customer Service
Cost-Efficient Operations
Minimum Inventory Investment
Relevant Inventory Costs
ABC Inventory Classification
Inventory Record Accuracy
Determining Order Quantities
Nonmathematical Techniques for Determining Order Quantity
Mathematical Models for Determining Order Quantity
The Single-Period Inventory Model
Why Companies Do Not Always Use the Optimal Order Quantity
How a Company Justifies Smaller Order Quantities
Determining Safety Stock Levels
The Periodic Review System
Comparing Continuous Review Systems and Periodic Review Systems
Pandemic Effects
Inventory Management within OM: How It All Fits Together
Inventory Management Across the Organization
The Supply Chain Link
The Sustainability Link
Solved Problems
Cases: AgroSolutions Pvt. Ltd.
Kayaks!Incorporated
Analytics in Decision Making
Internet Challenge: Community Fundraiser
Summary / Key Terms / Formula Review / Discussion
Questions / Problems / Selected Bibliography
13 Aggregate Planning
Chapter Overview
Business Planning
Aggregate Planning Options
Demand-Based Options
Capacity-Based Options
Evaluating the Current Situation
Aggregate Plan Strategies
Level Aggregate Plan
Chase Aggregate Plan
Hybrid Aggregate Plan
Developing the Aggregate Plan
Aggregate Plans for Companies with Tangible Products
Aggregate Plans for Companies with Nontangible Products
Pandemic Effects
Aggregate Planning within OM: How It All Fits Together
Aggregate Planning Across the Organization
The Supply Chain Link
The Sustainability Link
Solved Problems
Cases: EthnicCrafts Pvt. Ltd.
SMC Inc.: Kitchen Countertops Manufacturer
Analytics in Decision Making
Internet Challenge: Cruising
Summary / Key Terms / Discussion Questions / Problems /
Selected Bibliography
14 Resource Planning
Chapter Overview
Enterprise Resource Planning
The Evolution of ERP Systems
The Benefits and Costs of ERP
The Benefits of ERP Systems
The Costs of ERP Systems
Material Planning Systems
An Overview of Material Planning Systems
Objectives of MRP
Types of Demand
The Operating Logic of MRP
How MRP Works
Action Notices
Comparing Different Lot Size Rules
Capacity Requirements Planning (CRP)
Pandemic Effects
Resource Planning Within OM: How It All Fits Together
Resource Planning Across the Organization
The Supply Chain Link
The Sustainability Link
Solved Problems
Cases: Crystal Clear Beverages
Desserts by J.B.
Analytics in Decision Making
Internet Challenge: The Gourmet Dinner
Summary / Key Terms / Formula Review / Discussion
Questions / Problems / Selected Bibliography
15 Scheduling
Chapter Overview
Basic Scheduling Concepts
Scheduling High-Volume Operations
Scheduling Low-Volume Operations
Shop Loading Methods
Developing a Schedule of Operations
How Priority Rules Are Used
Scheduling Performance Measures
Using Different Priority Rules
Sequencing Jobs Through Two Work Centers
Optimized Production Technology
Scheduling Bottlenecks
Theory of Constraints
Scheduling Issues for Service Organizations
Scheduling Techniques for Service Organizations
Scheduling Employees
Developing a Workforce Schedule
Pandemic Effects
Scheduling Within OM: Putting It All Together
Scheduling Across the Organization
The Supply Chain Link
The Sustainability Link
Solved Problems
Cases: Air Traffic Controller School (ATCS)
Scheduling at Rainbow Fireworks Company
Analytics in Decision Making
Internet Challenge: Batter Up
Summary / Key Terms / Formula Review / Discussion
Questions / Problems / Selected Bibliography
16 Project Management
Chapter Overview
The Project Life Cycle
Project Management Concepts
Step 1: Describe the Project
Step 2: Diagram the Network
Step 3: Estimate the Project's Completion Time
Step 3(a): Deterministic Time Estimates
Step 3(b): Probabilistic Time Estimates
Step 4: Monitor the Project's Progression
Estimating the Probability of Completion Dates
Reducing Project Completion Time
Crashing Projects
The Critical Chain Approach
Adding Safety Time
Wasting Safety Time
Pandemic Effects
Project Management Within OM: How It All Fits Together
Project Management OM Across the Organization
The Supply Chain Link
The Sustainability Link
Solved Problems
Cases: The Administrative Office Moves
Writing a Textbook
Analytics in Decision Making
Internet Challenge: Creating Memories
Summary / Key Terms / Formula Review / Discussion
Questions / Problems / Selected Bibliography
APPENDIX A The Standard Normal Distribution
APPENDIX B p-Chart
ANSWERS TO ODD NUMBERED PROBLEMS
COMPANY INDEX
