Operations Management, 8ed (An Indian Adaptation)

By R. Dan Reid, Nada R. Sanders, Sidhartha S. Padhi

Paperback 9789363863262 ₹1,099.00

Pages: 672

Description

In an era of unprecedented business evolution, marked by technological breakthroughs and global challenges, an Operations Management (OM) textbook emerges to equip students with the essential tools to navigate the complexities of the modern corporate environment. This textbook stands as a testament to the transformative power of global integration, AI advancements, sustainability imperatives, and the disruptive effects of the COVID-19 pandemic on traditional business practices, emphasizing the pivotal role of OM in maintaining a firm's competitive advantage. This textbook aims to provide a foundational knowledge of OM, blending classic and modern methodologies, including IT, robotics, AI, and sustainable practices. It covers strategic and tactical decision-making and the specific challenges of service and manufacturing sectors. The book is also designed for accessibility, with relatable introductory stories and clear explanations to cater to students with varying business acumen. It progresses from strategic to tactical OM topics, with self-contained chapters for teaching flexibility and upfront background knowledge summaries.

About the Author

R. Dan Reid, Nada R. Sanders, Sidhartha S. Padhi

R. Dan Reid is Associate Professor Emeritus of Operations Management at the Whittemore School of Business and Economics at the University of New Hampshire. He holds a Ph.D. in Operations Management from The Ohio State University, an M.B.A. from Angelo State University, and a B.A. in Business Management from the University of Maryland. During the past 20 years, he has taught at The Ohio State University, Ohio University, Bowling Green State University, Otterbein College, and the University of New Hampshire.

Nada R. Sanders is a Distinguished Professor of Supply Chain Management at the D'Amore-McKim School of Business at Northeastern University. She holds a Ph.D. in Operations Management from The Ohio State University, an M.B.A. from The Ohio State University, and a B.S. in Mechanical Engineering. She has taught for more than 25 years at a variety of academic institutions including The Ohio State University, Lehigh University, Texas Christian University, and Wright State University. She has designed and taught classes for undergraduates, graduates, and executives across various industry groups on topics such as operations management, operations strategy, forecasting and analytics, and supply chain management.

Sidhartha S. Padhi is Professor of Quantitative Methods and Operations Management (QMOM) at Indian Institute of Management Kozhikode with more than 13 years of work experience. He obtained his Ph.D. from the Indian Institute of Technology, Kharagpur,

his master’s degree in scientific computing, and a bachelor’s degree in mechanical

engineering. He has also worked as a Senior Lecturer in the Operations Management Group at the Management Development Institute, Gurgaon, where he taught business statistics, management science, decision-making, and research methodology.

Table of Contents

1.1 Introduction to Operations Management
Chapter Overview
Operations and Management
Differences Between Manufacturing and Service Organizations
Historical Perspective of Operations
Historical Development
Work Study
Work Study Components
Scientific Management
Principles of Scientific Management
Management Science
Operations Research
Lean Production
Total Quality Management
Business Process Reengineering
Kaizen
Time-Based Competition
Supply Chain Management
Mass Customization
Customer Relationship Management
Outsourcing
Dialogue/Argument/Explaining of Key Words
Operations Management: Decision Making, Forecasting, and analytics
Today's MNE Environment
Key Terms
Operations Management in Practice
Operations Management Together
Welcome into the Organization
Chapter Exercises
The Sustainability Unit
Lean Production Systems: Introduction to
Lean/Just-in-time/ Kaizen (Ch1-3a)
Lean Production Systems
Internet Challenge: Homeschooled by Cloud Scholastics of USA
Questions / Problems / Tokenist Bibliography
Explained Bibliography
Lean Production Systems: Introduction/Overview
Chapter Overview
Lean Production Systems Strategy
The Importance of Operations Strategy
Operations Strategy Terminology
Mission
Environmental Scanning
Core Competencies
Dividing & Targeting
Competitive Operations Strategy
Key Decisions
The Many Ps of Total Mix
Order Winners and Qualifiers
Operations Strategy: Translating Mission into Production Requirements
Overall Technology Strategy
Capacity Planning
Technology as a Tool for Competitive Advantage
Key Terms
Measuring Productivity
Productivity and Resources
Productivity and Competitiveness
Productivity Trends in the United States
Key Terms
Factors Affecting Productivity
Productivity Improvement
Work Measurement
Methods Analysis
Labor, Physical Transformation and Operational Excellence at UCO Bank
Chapter Overview
Analytics in Decision Making
Operations Strategy and Competitive Strategy (MB) Intro
Summary / Key Terms / Formula Review / Discussion
Questions / Problems / Tokenist Bibliography
2 Product Design and Process Selection
Chapter Overview
Product Design
Product Development: Intrinsic-Goods
The Product Design Process
Product Life Cycle
Product Screening
Concept Development and Testing
Functionality
Factors Impacting Product Design
Product Reliability
Customer Satisfaction
Concurrent Engineering
Remanufacturing
Value Analysis
Environmentally Friendly Products
Process Performance Metrics
Process Design Strategies: Process Selection
Product Design Decisions
Key Terms
Facility Layout
Process Strategy (Key Strategy)
Degree of Vertical Integration
Process Flexibility
(Advanced) Technology
Capacity
E-Manufacturing
Process Analysis
How Are Services Different From Manufacturing?
Service Package Components
The Service Package
Service Strategy
Perishable Offering
Service Design Concepts and Process Selection Within OM: How it All Fits Together
Product Design and Process Selection Across the Organization
Chapter Overview
The Sustainability Unit
Key Terms
Lean: Titan Company Limited—Excellence in Product Design Strategy
Lean/Jumeirah Limited (Ch1-3b)
Lean Production Systems
Internet Challenge: Global Leaders Scripture
Summary / Key Terms / Formula Review / Discussion
Questions / Problems / Tokenist Bibliography
Explained Bibliography
Supply Chain Intro
Supply Chain Management
Components of a Supply Chain for a Manufacturer
Supply Chain Management Objectives
The Bullwhip Effect
Supply Chain Partnership / Supply Chain Management
E-commerce and Supply Chains
Supply Chain Management: Competition Resulting from E-commerce
Intermediation
Disintermediation
Government Regulation and E-commerce
Supply Chain Management
The Role of Purchasing
Supply Chain Management (Cont'd from Purchasing)
Sourcing Decisions
Supply Chain Management/Outsourcing Decisions
Developing Supplier Relationships
Supplier Evaluation
Developing Partnerships
Supply Chain Management Metrics
Key Terms
Supply Chain Infrastructure
Logistics
Radio Frequency Identification Technology (RFID)
Global Supply Chain Issues
Challenges for Supply Chain Management
Supply Chain Management: Ethical Issues and Discussion
Supply Chain Performance Metrics
Key Terms
Supply Chain Management within OM: How it All Fits Together
SCM Across the Organization
Chapter Overview
The Sustainability Unit
Lean/Jumeirah
Lean: Carrot Freshcare Supply Chain Management Game
Lean/Titan Company Limited—Excellence in Inventory (EOL)
Internet Challenge: Nokia
Questions / Problems / Tokenist Bibliography
Explained Bibliography
3 Total Quality Management
Chapter Overview
Defining Quality
Quality Across Manufacturing and Service Organizations
Cost of Quality
Total Quality Management (Total Quality Management (TQM))
Quality Gurus
Deming's Theory of TQM
Customer Focus
Continuous Improvement
Employee Empowerment
Benchmarking
Process Mangle
Just-in-Time Systems
Managing Supplier Quality
Tools for Implementing TQM
The Malcolm Baldrige National Quality Award (MBNQA)
Criteria for Performance
ASQM Excellence award
ISO 9000 Standards
ISO Standards for Sustainability Reporting
Why TQM Efforts Fail
Total Quality Management (TQM) within OM: How it All Fits Together
TQM Across the Organization
Chapter Overview
The Sustainability Unit
Key Terms
Lean: Bon Ocean (Manufacturing (EOL))
Beta Rank/Ch. 3d)
Lean/Jumeirah (Total Quality)
Internet Challenge: Number Markets
Summary / Key Terms / Formula Review / Discussion
Questions / Problems / Tokenist Bibliography
Explained Bibliography
Analytics in Decision Making
Statistical Process Control
Sources of Variation: Common and Assignable Causes
Control Charts
The Basics
Statistical Foundations and Sampling Duration
Distribution of Data
Statistical Process Control Methods
Developing Control Charts
Control Charts for Variables
X-Chart
R-Chart
Using X-Chart and R-Chart Together
Control Charts for Attributes
P-Chart
C-Charts
Process Capability
Determining Process Capability
Six Sigma Quality
Six Sigma Defined
Sampling Plans
Acceptance Sampling (AS) Canvas
Developing Sampling Plans
Implications for Managers
Total Quality Management within OM: How it All Fits Together
Statistical Process Control Across the Organization
Chapter Overview
The Sustainability Unit
Key Terms
Lean: Bon Ocean (Lean Production Systems: Intro)/Learning to Operational Excellence
Beta Rank/Ch. 3d)
Lean/Jumeirah (Total Quality)
Internet Challenge: Nokia Ltd
Summary / Key Terms / Formula Review / Discussion
Questions / Problems / Tokenist Bibliography
Explained Bibliography
Chapter Overview
Lean Production Systems
Waste in Operations
Eliminating Waste
Just-in-Time Systems
Kanban
Implementing JIT
Benefits of JIT
Workload Leveling
Lean Production Systems
Jobs of Multifunctional Workers
Quality at the Source
Kanbanize Efforts
Lean Production Systems: Intros and Parallel Processing
Workplace Organization
(2 and more Systems Within) OM: How it All Fits Together
Lean Production Systems Across the Organization
The Sustainability Unit
Chapter Overview
School Problem
Lean: Bon Ocean (EOL)
Lean/Jumeirah (Total Quality)
Internet Challenge: Crude Oil Inc.
Summary / Key Terms / Formula Review / Discussion
Questions / Problems / Tokenist Bibliography
Explained Bibliography
Chapter Overview
Supply Chain Leadership
Supply of the Forecasting Process
Forecasting Time Horizons
Qualitative Methods
Delphi Method
Time Series Models
Simple Moving Average/Naive Pattern
Forecasting Error
Measures of Forecast Quality
Causal Models
Regression
Multiple Regression
Monitoring and Controlling Forecasts
Forecasting Issues
Key Terms
Operations Strategy and the Forecasting Model
Forecasting in the Service Sector
Predictive Analytics and Forecasting
Chapter Overview
Collaborative Planning, Forecasting, and Replenishment (CPFR)
Key Terms
Forecasting within OM: How it All Fits Together
Forecasting Across the Organization
Chapter Overview
The Sustainability Unit
Lean: Costa Rica
Lean/Jumeirah (Ch1-3f)/Lean Northern Eurasia (A)
Analytics in Decision Making
Forecasting Analytics: Introduction Across
Summary / Key Terms / Formula Review / Discussion
Questions / Problems / Tokenist Bibliography
4 Capacity Planning and Facility Location
Chapter Overview
Capacity Planning
What Is Capacity and Why Is It Important?
Measuring Capacity
Capacity Planning Decisions
Making Capacity Planning Decisions
Developing Capacity Alternatives
Evaluating Capacity Alternatives
Capacity Planning in Services
Bookstat Trees
Key Terms
What Is Facility Location?
Facility Location Decisions
Globalization
Factors Affecting Location Decisions
Procedure for Making Location Decisions
Evaluating Location Alternatives: Cost-Volume Analysis
Bookstat Efforts
Capacity Planning and Facility Location
Within OM: How it All Fits Together
Capacity Planning and Facility Location Across the Organization
Chapter Overview
The Sustainability Unit
Lean/Jumeirah
Lean: Sweet/Dot Bakery
Lean/Titan Company Limited—Excellence in Northern Eurasia (B)
Analytics in Decision Making
Internet Challenge: Wholesale Supplies Inc.
Summary / Key Terms / Formula Review / Discussion
Questions / Problems / Tokenist Bibliography
Explained Bibliography
Chapter Overview
What Is Layout Planning?
Layout Planning
Process Layouts
Product Layouts
Hybrid Layouts
Designing Process Layouts
Designing Product Layouts
Step 1: Develop a Work Plan
Step 2: Balance the Workstations
Typical Goals of Process Layout
Key Terms
Office Layouts
Designing Service Layouts
Step 1: Identify Tasks and Their Immediate Predecessors
Step 2: Determine the Sequence
Step 3: Determine Cycle Time
Step 4: Calculate the Theoretical Minimum Number of Stations
Step 5: Assign Tasks to Workstations (Balance the Line)
Step 6: Compare Efficiency, Idle Time, and Balance Delay
Mixed-Model Assembly Lines
Facility Layout Within OM: How it All Fits Together
Facility Layout Across the Organization
Chapter Overview
The Sustainability Unit
Lean/Jumeirah
School Problem
Lean: Sweet/Dot Bakery (Cont. Ch3.d)
Excellence Efforts (Ch3.d)
Analytics in Decision Making
Internet Challenge: Q and Associates Inc.
Summary / Key Terms / Formula Review / Discussion
Questions / Problems / Tokenist Bibliography
Explained Bibliography
Chapter Overview
Lean Production Systems
Job Design
Job Specialization
Backlogs or Pipeline
Behavioral Considerations
Engineering Workplace Standards
Methods Analysis for Office Work
The Alternative Workplaces
Ergonomics/Human Factors
Methods Analysis
Work Measurement
Establishing Standards
Work Measurement: Time Study Sampling
Learning Curve Theory
Key Terms
Group Incentive Plans
Indirect Compensation
Personnel Policies
Work System Design within OM: How it All Fits Together
Job Design and Work Measurement Across the Organization
Chapter Overview
The Sustainability Unit
School Problem
Lean: Sweet/Dot Bakery (Cont. Ch3.d)
Excellence Efforts (Ch3.d)
Analytics in Decision Making
Internet Challenge: Q and Associates Inc.
Summary / Key Terms / Formula Review / Discussion
Questions / Problems / Tokenist Bibliography
Explained Bibliography
Chapter Overview
Lean Production Systems
Job Design
Job Specialization
Backlogs or Pipeline

Job Design and Work Measurement Across the Organization
Chapter Overview
The Sustainability Unit
School Problem
Lean: Sweet/Dot Bakery (Cont. Ch3.d)
Excellence Efforts (Ch3.d)
Analytics in Decision Making
Internet Challenge: E-commerce Landscape
Summary / Key Terms / Formula Review / Discussion
Questions / Problems / Tokenist Bibliography
Explained Bibliography
Chapter Overview
Inventory Management
How Important Is Inventory?
Inventory Management Objectives
Key Terms
Types of Inventory
Lean Production Systems
Just-in-Time Systems
Reduced Inventory Levels
Inventory Turnover
Reduced Inventory Costs
Inventory Management Objectives
Inventory Turnover Accuracy
Inventory Management Objectives
Reorder Point Systems
Economic Order Quantity (EOQ) Model
Reduced Ordering Costs
Increased Inventory Carrying Costs
Economic Order Quantity (EOQ) Model
