Pages: 668

Description

Principles of Econometrics, Fifth Edition, is a comprehensive book tailored for undergraduate and postgraduate students in the fields of economics, commerce, business, statistics, and management. This edition equips students with a practical understanding of basic econometrics, enabling them to apply modeling, estimation, inference, and forecasting techniques to real-world economic issues. Additionally, readers will develop the ability to critically evaluate the findings of others' economic research and models, laying a solid foundation for advanced study in the field.

This Indian adaptation introduces new sections focusing on the Indian economic context, such as monetary policy, inequality of opportunity, and public health expenditure. Significant additions also include analyses of per-capita expenditure, private returns to education, and the impact of financial constraints on innovation in developing economies.

About the Author

R. Carter Hill, William E. Griffiths, Guay C. Lim, Chandan Sharma

R. Carter Hill is an Emeritus Professor of Econometrics at Louisiana State University (LSU). He has been a part of LSU since 1985, after teaching at the University of Georgia. Hill holds a Ph.D. in Economics from the University of Missouri-Columbia and has published over 70 scholarly papers.

William E. Griffiths is an Emeritus Professor of Econometrics at the University of Melbourne. He joined the university in 2001 and retired in 2018, having served in various leadership roles, including Head of the Department of Economics and Director of the Centre for Micro Econometrics. Griffiths has made significant contributions to econometric methodology, with research interests spanning Bayesian inference, demand modeling, and income distribution analysis.

Guay C. Lim is a Professorial Fellow at the Melbourne Institute of Applied Economic and Social Research at the University of Melbourne. She holds a Ph.D. from the Australian National University and has extensive experience in macroeconomic modeling, forecasting, and policy analysis.

Chandan Sharma is a Professor in Economics and Business Environment area with Indian Institute of Management Lucknow. He teaches Macroeconomics, International Economics and Finance, Public Economics and Econometrics. His research focuses on Industrial Economics, Infrastructure, Development Economics, Political Economy and Shadow Economy. He has worked extensively on firm-level productivity, ICT, R&D, Infrastructure and growth nexus, Optimum currency Area (OCA) and international reserves.

Table of Contents

1	Introduction to Econometrics
2	1.1 What is Econometrics About?
3	1.2 The Role of Theory in Econometrics
4	1.3 The Econometric Model
5	1.4 Data Sources and Collection
6	1.5 The Econometric Process
7	1.6 Summary and Key Points
8	2. The Linear Regression Model
9	2.1 The Linear Regression Model
10	2.2 The Linear Regression Model
11	2.3 The Linear Regression Model
12	2.4 The Linear Regression Model
13	2.5 The Linear Regression Model
14	2.6 The Linear Regression Model
15	2.7 The Linear Regression Model
16	2.8 The Linear Regression Model
17	2.9 The Linear Regression Model
18	2.10 The Linear Regression Model
19	2.11 The Linear Regression Model
20	2.12 The Linear Regression Model
21	2.13 The Linear Regression Model
22	2.14 The Linear Regression Model
23	2.15 The Linear Regression Model
24	2.16 The Linear Regression Model
25	2.17 The Linear Regression Model
26	2.18 The Linear Regression Model
27	2.19 The Linear Regression Model
28	2.20 The Linear Regression Model
29	2.21 The Linear Regression Model
30	2.22 The Linear Regression Model
31	2.23 The Linear Regression Model
32	2.24 The Linear Regression Model
33	2.25 The Linear Regression Model
34	2.26 The Linear Regression Model
35	2.27 The Linear Regression Model
36	2.28 The Linear Regression Model
37	2.29 The Linear Regression Model
38	2.30 The Linear Regression Model
39	2.31 The Linear Regression Model
40	2.32 The Linear Regression Model
41	2.33 The Linear Regression Model
42	2.34 The Linear Regression Model
43	2.35 The Linear Regression Model
44	2.36 The Linear Regression Model
45	2.37 The Linear Regression Model
46	2.38 The Linear Regression Model
47	2.39 The Linear Regression Model
48	2.40 The Linear Regression Model
49	2.41 The Linear Regression Model
50	2.42 The Linear Regression Model
51	2.43 The Linear Regression Model
52	2.44 The Linear Regression Model
53	2.45 The Linear Regression Model
54	2.46 The Linear Regression Model
55	2.47 The Linear Regression Model
56	2.48 The Linear Regression Model
57	2.49 The Linear Regression Model
58	2.50 The Linear Regression Model
59	2.51 The Linear Regression Model
60	2.52 The Linear Regression Model
61	2.53 The Linear Regression Model
62	2.54 The Linear Regression Model
63	2.55 The Linear Regression Model
64	2.56 The Linear Regression Model
65	2.57 The Linear Regression Model
66	2.58 The Linear Regression Model
67	2.59 The Linear Regression Model
68	2.60 The Linear Regression Model
69	2.61 The Linear Regression Model
70	2.62 The Linear Regression Model
71	2.63 The Linear Regression Model
72	2.64 The Linear Regression Model
73	2.65 The Linear Regression Model
74	2.66 The Linear Regression Model
75	2.67 The Linear Regression Model
76	2.68 The Linear Regression Model
77	2.69 The Linear Regression Model
78	2.70 The Linear Regression Model
79	2.71 The Linear Regression Model
80	2.72 The Linear Regression Model
81	2.73 The Linear Regression Model
82	2.74 The Linear Regression Model
83	2.75 The Linear Regression Model
84	2.76 The Linear Regression Model
85	2.77 The Linear Regression Model
86	2.78 The Linear Regression Model
87	2.79 The Linear Regression Model
88	2.80 The Linear Regression Model
89	2.81 The Linear Regression Model
90	2.82 The Linear Regression Model
91	2.83 The Linear Regression Model
92	2.84 The Linear Regression Model
93	2.85 The Linear Regression Model
94	2.86 The Linear Regression Model
95	2.87 The Linear Regression Model
96	2.88 The Linear Regression Model
97	2.89 The Linear Regression Model
98	2.90 The Linear Regression Model
99	2.91 The Linear Regression Model
100	2.92 The Linear Regression Model
101	2.93 The Linear Regression Model
102	2.94 The Linear Regression Model
103	2.95 The Linear Regression Model
104	2.96 The Linear Regression Model
105	2.97 The Linear Regression Model
106	2.98 The Linear Regression Model
107	2.99 The Linear Regression Model
108	2.100 The Linear Regression Model
109	3. The Multiple Regression Model
110	3.1 The Multiple Regression Model
111	3.2 The Multiple Regression Model
112	3.3 The Multiple Regression Model
113	3.4 The Multiple Regression Model
114	3.5 The Multiple Regression Model
115	3.6 The Multiple Regression Model
116	3.7 The Multiple Regression Model
117	3.8 The Multiple Regression Model
118	3.9 The Multiple Regression Model
119	3.10 The Multiple Regression Model
120	3.11 The Multiple Regression Model
121	3.12 The Multiple Regression Model
122	3.13 The Multiple Regression Model
123	3.14 The Multiple Regression Model
124	3.15 The Multiple Regression Model
125	3.16 The Multiple Regression Model
126	3.17 The Multiple Regression Model
127	3.18 The Multiple Regression Model
128	3.19 The Multiple Regression Model
129	3.20 The Multiple Regression Model
130	3.21 The Multiple Regression Model
131	3.22 The Multiple Regression Model
132	3.23 The Multiple Regression Model
133	3.24 The Multiple Regression Model
134	3.25 The Multiple Regression Model
135	3.26 The Multiple Regression Model
136	3.27 The Multiple Regression Model
137	3.28 The Multiple Regression Model
138	3.29 The Multiple Regression Model
139	3.30 The Multiple Regression Model
140	3.31 The Multiple Regression Model
141	3.32 The Multiple Regression Model
142	3.33 The Multiple Regression Model
143	3.34 The Multiple Regression Model
144	3.35 The Multiple Regression Model
145	3.36 The Multiple Regression Model
146	3.37 The Multiple Regression Model
147	3.38 The Multiple Regression Model
148	3.39 The Multiple Regression Model
149	3.40 The Multiple Regression Model
150	3.41 The Multiple Regression Model
151	3.42 The Multiple Regression Model
152	3.43 The Multiple Regression Model
153	3.44 The Multiple Regression Model
154	3.45 The Multiple Regression Model
155	3.46 The Multiple Regression Model
156	3.47 The Multiple Regression Model
157	3.48 The Multiple Regression Model
158	3.49 The Multiple Regression Model
